

THE VIRTUES OF AQUINAS: NEW DIRECTIONS IN THEOLOGICAL VIRTUE ETHICS

SPEAKERS

Dr Nicholas Austin SJ

Lecturer in Theological Ethics, Heythrop College, University of London

David Elliot

Assistant Professor of Moral Theology and Ethics, Catholic University of America

Virtue ethics offers a rich vocabulary for exploring questions of human well-being, character formation and applied moral issues. Thomas Aquinas (1224-1274) is the author of one of the richest and most systematic virtue-based ethics in the Western canon. This event presents new work exploring the contemporary significance of Aquinas's moral system. It explores how theological work on the virtues can make important contributions to contemporary virtue ethics.

This event will also celebrate the
launch of *AQUINAS ON VIRTUE: A CAUSAL READING* by Nicholas Austin SJ
and *HOPE AND CHRISTIAN ETHICS* by David Elliot.
